SHREE RAM INDUSTRIES

About Us

Welcome to,

SHREE RAM INDUSTRIES one source for all things you need. We're dedicated to providing you the very best of services with an emphasis on

Founded in 2016 by Amit Kumar Yadav, Shree Ram Industries contractor has come a long way from its beginnings in Tapukara with Many Services.

Like Road Work, Painting Work, Maintenance Work, Fabrication Work, Aluminum Work, Housekeeping Works etc.

We hope you enjoy our products as much as we enjoy offering them to you. If you have any questions or comments, please don't hesitate to contact us.

AMIT KUMAR YADAV

Sincerely,

ABOUT US

ROAD WORK

What is the purpose of roads?

Roads make a crucial contribution to economic development and growth and bring important social benefits. They are of vital importance in order to make a nation grow and develop. In addition, providing access to employment, social, health and education services makes a road network crucial in fighting against poverty.

Requirements Of A Good Road Aggregate

- Hardness** : A good road aggregate should be sufficiently hard i.e. it should offer maximum possible resistance to abrasion. ...
- Toughness** : A good road aggregate should be quite tough i.e. it should offer the maximum possible resistance to the hammering effect of wheel loads.

Which type of road is best?

Earthen Roads. Earthen roads are laid with soil. ...

Gravel Roads. Gravel roads are also low-quality roads, but they are better when compared with earthen roads. ...

Murum Roads. ...

Kankar Roads. ...

WBM Roads. ...

Bituminous Roads. ...

Concrete Roads. ...

PAINTING WORK

Painting is an important form in the visual arts, bringing in elements such as drawing, composition, gesture (as in gestural painting), narration (as in narrative art), and abstraction (as in abstract art). ... A portion of the history of painting in both Eastern and Western art is dominated by religious art.

What is the process of painting?

From blank canvas, to charcoal sketch, to background, shaping, detail and finishing touches; each step of the painting process is meticulously carried out and performed with great attention to detail. Every brushstroke is a testament to the artwork, and is reflected in the stunning final result.

Here is an overview some of popular painting styles.

Realism art. Realism (a.k.a. naturalism) is a style of art regarded by most as “real art”. ...

Photorealism Art. ...

Painterly Art Style. ...

Impressionism Painting. ...

Abstract Art. ...

Surrealism art. ...

Pop Art.

At the end what makes a painting successful is that compositions, colors, and subject matter, all work harmoniously to deliver a unified and well-executed artwork that is pleasant to the viewer.

CIVIL WORK

Civil Work the design, construction, and maintenance of the physical and naturally built environment, including Road Works.

Types of Civil Work Projects :

Construction and Management Engineering. Construction and management engineering is about creating things like bridges, Buildings, roads, and railways. ...

Geotechnical Engineering. ...

Structural Engineering. ...

Transport Engineering. ...

CIVIL WORKS

FABRICATION WORK

Metal fabrication is the creation of metal structures by cutting, bending and assembling processes. ... As with other manufacturing processes, both human labor and automation are commonly used. A fabricated product may be called a fabrication, and shops specializing in this type of work are called fab shops.

Let's look at the types of fabrication processes in greater detail here:

Cutting. There are many ways to cut nowadays. ...

Folding. Some parts need to be bent. ...

Machining. This is the process of removing metal from a piece of material. ...

Punching. ...

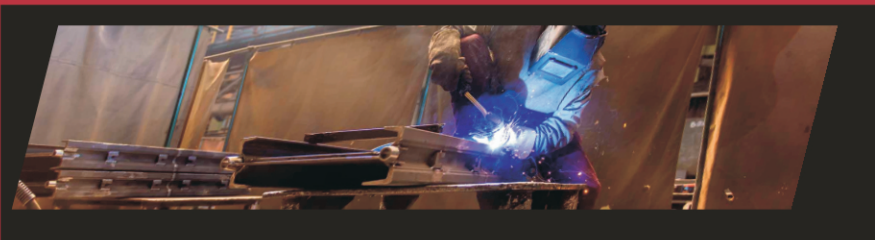

Shearing. ...

Stamping. ...

Welding. ...

Additive Manufacturing.

There are many types of fabrication techniques where the most common ones are cutting and machining, punching and drilling, straightening, bending and rolling, fitting and reaming, fastening, finishing etc.

ALUMINIUM WORK

5 Most Common Applications of Aluminium :

- Precision Tubing in motor vehicles, refrigerators, air conditioning, solar panels etc. ...
- Power Lines. ...
- Rolled Aluminium products. ...
- Heat sinks for cooling CPU's and graphics processors. ...
- Construction.

In fact, aluminum became more precious than gold and silver in the 19th century, because it was harder to obtain. The French government once displayed Fort Knox-like aluminum bars next to the crown jewels, and the minor emperor Napoleon III reserved a prized set of aluminum cutlery for special guests at banquets.

Advantages of Aluminium :

- Aluminium is an extremely versatile metal with a number of advantages, it is recognised for being both lightweight and flexible. .
- Light Weight. ...
- Corrosion Resistance. ...
- Electrical and Thermal Conductivity. ...
- Reflectivity and Ductility. ...
- Odourless and Impermeable. ...
- Recyclability. ...

ALUMINIUM WORK

HOUSEKEEPING WORK

Effective housekeeping can help control or eliminate workplace hazards. ... Housekeeping is not just cleanliness. It includes keeping work areas neat and orderly, maintaining halls and floors free of slip and trip hazards, and removing of waste materials (e.g., paper, cardboard) and other fire hazards from work areas.

5S or good housekeeping involves the principle of waste elimination through workplace organization. 5S was derived from the Japanese words seiri, seiton, seiso, seiketsu, and shitsuke. In English, they can be roughly translated as sort, set in order, clean, standardize, and sustain.

Good housekeeping practices help ensure neat, organized, and safe workspaces, which can reduce stress and improve morale. An increase in productivity and lower operating costs may also result when workers spend less time tracking down a needed tool or other item. Reducing workplace injuries will also help lower costs.

The Essential Elements of Workplace Housekeeping :

Keep the Light Fixtures Clean. Good lighting is essential for commercial facilities. ...

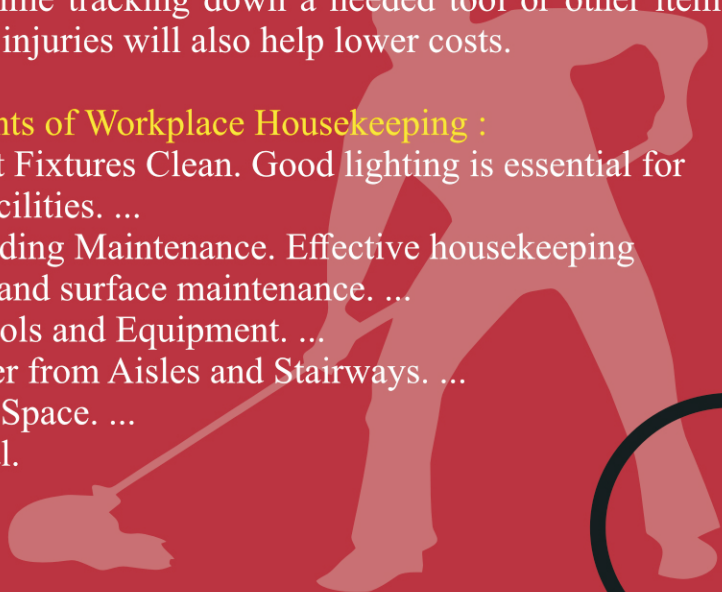

Floor and Building Maintenance. Effective housekeeping involves floor and surface maintenance. ...

Upkeep the Tools and Equipment. ...

Remove Clutter from Aisles and Stairways. ...

Clean Storage Space. ...

Waste Disposal.
